

A male doctor in a white lab coat is pulling the coat open with both hands. Underneath, a blue superhero-style chest is visible. The chest has the text "2017 MOM-APPROVED D ❤️ CS" on it. The doctor is wearing a light blue shirt and a dark blue patterned tie. A stethoscope is around his neck. The background is a light blue gradient.

**Kid-tested, parent-approved. Metro Parent readers raved about their favorite pediatricians, dentists, therapists and much more. Who made this year's cut?**

**W**hether it's the school they go to or the food they eat, we all want the absolute best for our kids. So, naturally, who we choose to entrust with their health is one of the toughest decisions to make. That's why every year, we ask readers to share their favorite medical professionals and nominate them for Mom-Approved Docs. Parents shouldn't have to guess who'll best care for their little ones. And with our list, they don't have to. These docs have already been vetted by local parents just like you.

**Berry for over 14 years. I love our annual checkups as they are thorough and go above and beyond by talking with our kids about how important school is, how to stay away from drugs, alcohol and peer pressure, and how social media can affect your life. “He loves all ‘his kids’ like his own. Whether you bring your child in for a sore throat, a sprained knee or a fever, every child is examined thoroughly, head to toe, every single time – without exception. Because of this, he catches things other docs don’t, and catches them early. If you are worried about your child, he can be reached day or night. Truly the best pediatrician in the Dearborn area, hands-down.”

**“You will always feel Dr. Rao’s genuine love of children. It helps that she also has a child a little older than mine. She has gone through the same things as a parent. She always seems to get it ‘right,’ but I think it is because she is so thorough and plans out with you what to do. I trust her judgment 100 percent.”**

“Our daughter was diagnosed with a rare mitochondrial disorder two years ago at age 2. Treating physicians opined that she might not reach the age of 8. Ms. Taufiq was one of the few rays of hope who strengthened our resolve. During such a dark and foggy beginning, she gave us precisely what we needed, which was confidence and a plan for our daughter. Her big heart continues to drive us.”

“Miss Kristen is great with my son. She challenges him to meet new social milestones while keeping the sessions fun and engaging. She listens to my concerns and tailors his sessions around them. We love Miss Kristen!”
